BOSTON, Nov. 24.

The SPEECH of his Excellency
JONATHAN BELCHER, Eſq;
Captain General and Governour in Chief, in and over His Majeſty's Province of the Maſſachuſetts Bay *in* New-England, *to the General Aſſembly of the ſaid Province, met by Adjournment, on Wedneſday* November 19. 1735.

Gentlemen of the Council and Houſe of Repreſentatives,

THIS being commonly a Seaſon of the moſt Leiſure, I am glad His Majeſty's Service has not oblig'd me to call you together ſooner; And it may not be amiſs for you to have recourſe to many Things ſtill remaining undone, which I mention'd to the Aſſembly the laſt Winter.

WHEN I firſt arrived to the Government, I earneſtly recommended to the Aſſembly the doing all in their Power, for the Preſervation of the KING's Woods, and this I have frequently repeated, and do now in Duty to His Majeſty, urge upon you, to paſs ſome good Law for preventing for the future, the Waſte and Deſtruction of His Majeſty's Woods, which are of the laſt Importance to the Royal Navy; and I can aſſure you, the doing ſomething of this Nature, will be taken as an Inſtance of your Duty to the Crown, and of your Zeal for the King's Service.

THERE are many evil-minded Perſons among us who make a Buſineſs of Counterfeiting the Bills of Credit of this and the neighbouring Provinces, it ſeems therefore neceſſary to do ſomething further for putting a ſtop to this vile Practice.

AND as I have now mentioned the Bills of publick Credit, I can't help obſerving to what a low State they are reduced, and that it is abſolutely in the Power of this Legiſlature to redreſs this Miſchief, by fixing their future Emiſſions to a certain Standard; and this I believe would be the likelieſt Way for obtaining the Liberty of having a Sufficiency of Bills for the Service of the Government, and for the Trade.

IT is neceſſary that I ſhould obſerve to you, That in the Courſe of another Year there may be occaſion for large Sums of Money, to pay off the Bounties which may become due by the Laws made for the Encouragement of the Manufactures of the Province; and that under His Majeſty's preſent Reſtriction to His Governor, you may eaſily perceive a Difficulty ariſing, which may perhaps be prevented, by a ſeaſonable Application to His Majeſty on this Article.

AS the Taxes of the Government are grown heavy and will ſtill increaſe, I think it would be prudent that the Aſſembly for the future ſhould ſet the Grants of Townſhips to Sale, taking Care that the neceſſary Conditions for having the Towns well ſettled be duly performed, and this might in Time lay a large Stock of Money into the publick Treaſury, which would be a great Eaſe to the People.

I am glad of the Opportunity of telling you, That the Interview I lately had with the *Cagnuwagas* and other Indian Tribes on the Weſtern Frontiers, has been attended with all the Succeſs that could be expected, for the better eſtabliſhing the Peace we enjoy with thoſe Indians, and for ſpreading the Goſpel among them; and I have directed what paſt at that Conference to be printed in order to be laid before you.

I am ſorry to repeat to you the continual Complaints I receive of the great Abuſes committed on the Indians in the Eaſtern Parts by private Traders, and more eſpecially by the great Quantities of Rum, with which they intoxicate them, and then cheat them of their Peltry, and even rob them of their neceſſary Cloathing: I hope therefore you will think it proper to forbid by a Law, all private Trade with the Indians, which can be no Damage to them, who may be conſtantly ſupplied at the moſt reaſonable Rate by the Government; and unleſs an effectual Stop be put to theſe Practices, I am afraid they will produce fatal Conſequences to this Government.

I have now only to aſſure you, *Gentlemen*, That you ſhall find my chearful Concurrence in every Thing you may propoſe for His Majeſty's Service, and for the Happineſs of this Country.

Nov. 19 1735. *J. BELCHER.*

Four Youths that went over from this Town, in a ſmall Boat, to Dorcheſter Neck, to ſee the Diverſions there in the Evening after the 5th Inſtant, having not been heard of for ſome Time after, People had various Conjectures concerning them; but it was moſt generally tho't they were drowned in their return Home; and accordingly it now appears that they were, the Bodies of two of them having been found, one on Monday and the other on Tueſday laſt.

Milton, Nov. 21. On Tueſday laſt Died after a long and tedious Indiſpoſition Mr. *Samuel Miller*, of this Place in the 72d Year of his Age, and this Day he was decently Interr'd, the Pall was ſupported by *Samuel Thaxter, Eſqs; Hatch, William Tayn*; and *Joſhua Lamb*, Eſqrs; Capt. *Jonathan Gulliver*, and Major *John Billings*. Extract from the Journal of the Houſe of Repreſentatives for the Colony of New-York, *Nov.* 6 1735.

The Speaker from the Chair acquainted the Houſe, That himſelf and Capt. *Van Horn* having (according to an Order of the 4th Inſtant) waited on his Excellency and read to him a Copy of the Petition of a great Number of the Inhabitants of the City of *New-York*, for a Diſſolution of this preſent Aſſembly. That he had likewiſe read unto him a Copy of the Order and Requeſt of the Houſe thereon; and that he had then delivered both the ſaid Copies to his ſaid Excellency, who had been pleaſed to make an Anſwer thereto in Writing. Which being delivered to the Houſe, was read, and is in the Words following, viz.

GENTLEMEN,

SINCE your present Message takes Notice, that the House applyed to me in November last for the same Thing they now desire, they must allow it still more out of the ordinary Course now, than it was at that time. Therefore I must again Answer, That as the Adjourning, Proroguing and Dissolving of the Assembly is the undoubted Prerogative of the Crown, and that as his Majesty has been pleased to entrust me with that Power, I shall make use of it, as I find it for the Service of his Majesty, and the Benefit of the Province, which I do not yet apprehend it to be.

W. COSBY.

LONDON, Sept. 25

Yesterday his Royal Highness the Prince of Wales, went early in the Morning to St. James's Palace, where after some Directions his Highness gave to the Workmen, employed to enlarge his Apartment in that Palace, was pleased to distribute some Money among them.

The same Day their Highnesses the Duke, and the Princess Amelia, went to take the Diversion of hunting the Hind in Windsor Forest; they took a short Collation at the Lord Tankerville's Lodge at Swinley, and returned to Kensington about Six o'Clock in the Evening.

Yesterday Morning an Express was dispatched to the Right Hon. the Earl of Essex, his Majesty's Ambassador at the Court of Turin, on some important Affairs.

On Monday last his Grace the Duke of Newcastle gave an elegant Entertainment to several of the Nobility and Gentry at Claremont in Surry. And

Her Grace the Duchess of Newcastle went yesterday to Kensington, to wait on her Majesty and the Royal Family.

Yesterday Morning his Excellency Prince Cantimar the Russian Minister, had a long Conference with Sir Robert Walpole, and in the Afternoon dispatched an Express to Petersburg on some important Affairs.

By a Letter from Hamburg we hear, that new Representations have been made to the King of Denmark by the Maritime Powers, in order to engage his Majesty to declare himself for the Emperor, or at least to condescend to be a Mediator in the present Crisis. But we hear his Majesty desired to be excused, being resolved not to take Part or concern himself in the present Troubles of Europe.

Yesterday Morning about 7 o'Clock, Mr James Hindey, an eminent Corn-Factor, as he was coming with his Wife in a Chaise from his Country House near Croydon, was attacked within a Mile of the Borough of Southwark, by three Highwaymen well mounted and robbed of his Silver Watch, two half Guineas, and his Silver Shoe-Buckles, and from his Wife they took a green Silk Purse, with a Guinea in it, a Diamond Ring, and a Gold Seal. Mr Hindey saw them afar of, and thinking they were Rogues, drove with such Speed, that the Chaise was overturned, and his Wife narrowly escaped being run over, which facilitated those Rogues Design. They cursed him heartily, and had it not been for the Sake of his Wife, who on her Knees begged his Life, they would have shot him: Two Gentlemen on Horse back passed by, while they were committing the said Robbery, but took no Notice of it, and no sooner the Rogues had committed the Fact, but they went in pursuit of those two Gentlemen who were going into the Country.

Yesterday one James Willoughby, *alias* the Black, was seized in Whitechappel, as soon as he dismounted his Horse, and was going to a Geneva Shop, by a Constable and three Men well armed, on an Information of one Mary Colet his Mistress, for several Street Robberies, which she proved, shewing several Goods and a Watch which belonged to Mr. John Hall, a Tradesman in Whitechappel; after an Examination of about three Hours, he was committed to Newgate by Sir Richard Brocas. It seems that the said Willoughby left Mary Colet, and kept another Woman Company, and in Revenge, she made an Information against him of his Way of Living, Abode, and what Houses he used. He denied the Fact, but at the Sight of the Watch and the Owner of it, he changed as pale as Death, sure Demonstrations of his being Guilty.

Hague, Sept. 30. N. S. The States General are busy at present in drawing up some Proposals, in order to oblige the Emperor to alter his Intention of sending the 40,000 Men he designs to quarter in the Austrian Netherlands as being contrary to the Stipulations made between his Imperial Majesty and their High-Mightinesses, October 1733. And in case the Emperor refuses the same, the States of Holland are absolutely resolved to withdraw their Troops from the Barriers. Their High-Mightinesses say, that since the War broke out, they have done for his Imperial Majesty as much as lay in their Power; and though they have not sent him the Succours he desired, they have furnished him with as much Money as they were able, and given leave to their Subjects to do the same; that their Good Offices have been instrumental in engaging the Court of France not to penetrate into the Heart of Germany, which they could have done very easily by the many Opportunities they had; and that the Emperor having no strong Place to oppose their Enterprizes, was hardly in a Condition to defend himself.

Philadelphia, Nov. 6 The Propietor having soon after his Arrival in this Province hired a Person, skill'd in Pot-Ash, to try some Experiments therein upon the Wood of this Country, and having since given Encouragement for making it, sent over to England a Parcel for Trial. For the Information of all Persons that may design to make any Attempts of this kind, He has been pleased to communicate to us the following Extract of a Letter received from a noted Merchant in London, dated the 3d of July last.

'The seven Casks of Pot Ash by *Steadman* came in good 'Order, they prove a right Kind, and I having had one 'em try'd, have the Pleasure to tell you, it answers 'well, as to give Hopes, that your People will in time, 'able to produce it of a perfect Quality; for which the 'seems to want only a little Care in the management 'the Kilns, or Places 'tis made in, which, please to mind 'must be kept quite close whilst burning, and should 'made as large as possible, for then the Ashes will be free 'from Dirt and Dross than some of those are, and 'larger Cakes or Pieces; and they should be made 'dry as can, by which I presume is meant should have 'more Fire. I have sent 'em all into a Soap Boilers, and 'my next will tell you the Price. If you can (as I apprehend you may) produce a large Quantity, I believe 'you might in time, establish such a Trade therein 'would cut out the Eastern Countries. I should be glad 'to know how much you think 'tis probable the Country may produce annually.
